What is not covered by Golden Field?

Bamboo being a natural product will continue to expand and contract during normal seasonal temperature and humidity changes. Expansion gaps should be installed as required. Bamboo may naturally experience minor checking (cracks). This is more common in environments that are excessively dry or excessively humid or prone to dramatic variations in humidity. This is not covered by this warranty.

Colour variations can occur between batches of the same species. Colour and appearance can also be affected by exposure to ultraviolet light and oxygen. Fading and discoloration from heat and sunlight is not covered by this warranty.
